Course Description

Management and Leadership is designed to empower you with the skills you will need to make meaningful change in the world—whether you care about bike lanes, criminal justice, prenatal care, community development, urban planning, social investment, or something else. Whatever your passion, you can have an impact by leading and managing. In this course, you will enhance the technical, interpersonal, conceptual, and political skills needed to run effective and efficient organizations embedded in diverse communities, policy arenas, sectors, and industries. In class, we will engage in a collective analysis of specific problems that leaders and managers face—first, diagnosing them and then, identifying solutions—to explore how organizations can meet and exceed their performance objectives. As part of that process, you will encounter a variety of practical and essential topics and tools, including mission, strategy, goals, structure, teams, diversity and inclusion, motivation, and negotiation.

Learning Objectives and Skill Development

The course combines conceptual and experiential approaches and is divided into four modules: 1) Teams and teamwork, 2) Interpersonal dynamics, 3) Designing and aligning organizations, and 4) Leading change.

Readings will introduce key concepts and useful ways of thinking about common situations in complex organizations. Case studies, exercises, and class discussions provide opportunities to apply theories, concepts, and research findings to particular situations to hone your managerial and leadership skills. The written assignments require you to consolidate your insight and practice your analytical and communication skills.

There are three learning objectives that cut across each Lesson:

- 1. Analytical Thinking and its supporting skillset is as follows:
 - a. Identify, analyze, and address underlying problems and opportunities
 - b. Recognize, analyze, and manage complex relationships
 - c. Reframe the way you approach people and situations
- 2. Leveraging diversity and its supporting skillset is as follows:
 - a. Identify, understand, and use different types of diversity
 - b. Explore how to create, participate in, and coach diverse teams
 - c. Develop skills to address the challenges and opportunities of diversity
- 3. Communication and its supporting skillset is as follows:

Participation

Each of us brings different and relevant experiences to the classroom, so we will be learning from each other, challenging our assumptions, and trying to understand the reasoning that underlies our colleagues' behavior. The only way to conduct a sharp case analysis and contribute insightful comments is to read the cases and articles carefully and complete the exercises, reflecting on how they inform situations you have experienced.

We calculate your participation grade by 1) tracking comments throughout the semester and rating them for quality—you don't need to participate all the time, but you need to participate sometimes, 2) rating the quality of your contribution to the class online Discussion on Brightspace, and 3) calculating attendance and survey / exercise submissions. If you will be absent or delayed, please email the teaching colleague.

Network writing assignment due Friday, June 2nd at 9:00pm

This one-page writing exercise is meant to allow you to consider the network information and network analysis you just engaged in. Please consult slides for assignment description. (One-

page, single spaced, 1-inch margins, and 12-point font. Please submit your write-up on NYU Brightspace under Assignments.)

Job crafting assignment due Friday, June 9th at 9:00pm

This reflection is meant to allow you to consider the job crafting exercise you just engaged in. Please describe 1) what you learned about yourself and your work from this exercise, 2) how you might use the lessons from this exercise going forward, and 3) how you would determine when to job craft versus another strategy (e.g., leave a role). Please consult slides for assignment description. (One-page, single spaced, 1-inch margins, and 12-point font. Please submit your write-up on NYU Brightspace under Assignments.)

Final exam will open on Brightspace on June 20 at 9:00am and close on June 30 at 9:00 pm.

The final exam will cover topics from the lecture, readings, course discussions, and your teamwork. If you come to class, do all the readings, engage in class discussions, and reflect on the material we covered, you will be well prepared. The final exam will be take-home.

Class Teams

You will be assigned a team to work together on one memo and the congruence model assignment. You can also discuss and debate the case analysis and recommendations before the class discussion. You are expected to do all the readings and consider the case questions before class.

Analytical memos

Your purpose in writing these memos is to provide information and make recommendations to people who must make decisions about key strategic issues. Pedagogically, this assignment provides you with the opportunity to develop your writing, analysis, and communication skills. It also gives you the ability to apply course principles and practices. For each of the memos:

- <u>Team memo</u>: Please include a cover page with the names of everyone who contributed to the memo and the role they played in the memo. If a group member did not contribute, do not include that person's name and s/he will not receive credit for this assignment. Everyone whose name does appear on the assignment will receive the same grade.
- Format:
 - o Address a specific person.
 - Open with a very brief one-paragraph summary. What is the context, why is this important, what are the key issue(s), and your recommendation?
 - Explain your diagnosis. Why is this group/department/organization facing these issues? What are the root causes and why?
 - O Provide specific recommendations that are realistic and take the individuals, context, timing, and other variables in the case into account. How should your recommendations be implemented? What are the priorities? Why are these recommendations better than a reasonable alternative?
 - The memo should be no longer than two pages (not including the cover page), single-spaced, 1-inch margins, and 12-point Times New Roman font. List references or figures, if necessary, on a concluding page. Please use paragraph headings. Remember to submit your memos on NYU Brightspace under Assignments.

• Grading:

There is no single right answer, but there are stronger and weaker memos.

- o 30 pts are allocated for the analysis of the problems/opportunities and root causes.
- o 30 points are allocated for your recommendations.
- o 16 points are allocated for demonstrating strong critical thinking skills.
- o 12 points are allocated for the quality of your writing.
- o 12 points are allocated for the organization of ideas and format.
