Instructor Information

- Professor Rachel Swaner
  - Email: rls200@nyu.edu
  - Phone: 917-445-7219
  - Office hours: by appointment
- Class Meeting Time: Tuesdays, 4:55-6:35 pm
- Class Location: Silver, Room 410

Course Prerequisites

Students must have completed (or waived) CORE-GP 1011 Statistical Methods (or a similar course), as this class builds on that introductory course.

Course Description and Objectives

Program evaluation is a critical component in designing and operating effective programs. Evaluations supply information to program managers and policymakers that can assist them in making decisions about which programs to fund, modify, expand, or eliminate. Evaluation can be an accountability tool for program managers and funders. This course serves as an introduction to evaluation methodology and evaluation tools commonly used to assess publicly funded programs.

Course Learning Objectives

Course objectives include:

1) Become familiar with the concepts, language, methods and applications of evaluation research;
2) Understand how to develop a logic model for an intervention and how to use it to guide evaluation;
3) Develop the ability to formulate clear, answerable research questions for evaluation;
4) Develop the ability to identify, modify, or develop appropriate measures of outcomes that are valid, reliable and feasible;
5) Learn how to read evaluation research critically;
6) Develop a detailed, feasible, and rigorous evaluation proposal to assess the implementation and effectiveness of a program.

Course Structure

The class includes lecture, readings, and discussion. There is no specific policy or sector focus to this course, as evaluation tools are used in all policy areas and by public (government) and private (foundation) funders as well as by public and private sector program managers. Students are encouraged to relate the general material of the course to their specific program/policy interests.

Required Readings

Most of the required readings are articles in peer-reviewed journals that provide “real life” case studies of evaluations, with some representations of evaluation research in popular media. There are also a few required chapters from textbooks. All the required articles and chapters are available on BrightSpace under Resources (organized by class session). Also listed are optional readings if you want to dig deeper into the topic.

Course Requirements

Class preparation and participation are important for this course. Students need to read required text and articles in advance and be prepared to participate in class discussion. In addition to class participation, students will write two brief memos (with an optional third for extra credit), complete one take-home midterm exam, and write a final evaluation design paper. **Note: The following descriptions are not enough to complete the assignments adequately. More detailed instructions are posted under Assignments on NYU Brightspace.**
Midterm Examination – March 21st

There will be a take-home essay style examination due March 21st. Students will work in groups.

Program Statement Memo – February 28th

Students will submit a short description of a selected program, indicating the problem to be addressed by the intervention, the intended beneficiaries or targets of the program, the intended benefits, and the causal model/program theory underlying the program. This memo is a preliminary step in writing the final design paper.

Measurement Memo – April 11th

Using the program model developed in the first memo, students will specify the research questions, operational definitions, and specific measures they would use in an evaluation of the program.

OPTIONAL Evaluation Review (for extra credit) – April 25th

It is important to become a good consumer of evaluations, if not a good evaluator oneself. Review one of three selected evaluation articles. In three pages, students will summarize the type of evaluation described, its design and methods, and write a critique of the evaluation.

Final Paper: Outcome Evaluation Design – May 9th

The final paper builds on earlier assignments. Students will design a comprehensive evaluation plan for their chosen programs. The proposal will focus on outcome or impact evaluation but will include a brief section on process evaluation as well. Students will work in groups.

Relative Weight of Assignments

- Midterm Exam: 40%
- Two Memos: 10%
- Final Paper: 40%
- Class Participation: 10%

Final Grades

- A: 94.5+
- A-: 88.5 - 94.4
- B+: 85.5 - 88.4
- B: 82.5 - 85.4
- B-: 78.5 - 82.4
- C+: 76.5 - 78.4
Course Schedule

Part I: Planning and Implementation

Class 1: January 24

Topics:
- Introduction to the course and the field of program evaluation
- Purposes and stakeholders

**January 31 – NO CLASS**

Videos to Watch:
- UCLA Library. 2021. Positionality & Research: How our Identities Shape Inquiry. Available at: https://www.youtube.com/watch?v=fTHFud7fr8c. (2 minutes 20 seconds)
- UCLA Library. 2021. Positionality & Research: Awareness Strategies. Available at: https://www.youtube.com/watch?v=ORrF7cKktRQ. (1 minute 51 seconds)

Class 2: February 7

Topics:
- Pre-program evaluation activities: needs assessment

Readings:

Class 3: February 14

Topics:
- Explicating and assessing program theory

Readings:
Class 4: February 21

Topics:
- Process evaluation and implementation analysis

Readings:

Class 5: February 28

Topic:
- Program Memo Presentations

Deliverable Due:
- Program memo due (send electronically)

Part II: Measuring the Impacts of Programs

Class 6: March 7

Program memo returned.

Topics:
- Outcome/Impact evaluation: design, internal and external validity.
Readings:

**March 14 – NO CLASS – NYU SPRING BREAK**

Class 7: March 21

Topics:
- Outcome/Impact evaluation: randomized experimental design

Readings:

Deliverable Due:
- Midterm answers due (send electronically).
Class 8: March 28

Topics:
- Outcome/Impact evaluation: quasi-experimental designs

Readings:

Class 9: April 4

Midterm exam returned.

Topics:
- Formulating Research Questions and Measurement

Readings:

Class 10: April 11

Topics:
- Full coverage and reflexive designs
- Sampling

Readings:

Deliverable Due:
- Measurement memo due (send electronically)

Class 11: April 18

Measurement memo returned.

Topics:
- Evaluation and Research Ethics

Readings:
Class 12: April 25

Topics:
- Qualitative Methods; Participatory Evaluation

Readings:

Deliverable Due:
- OPTIONAL Evaluation review memo due (for extra credit)

Class 13: May 2
- Final Project Group Meetings

Final Paper Due: May 9

Academic Integrity

Academic integrity is a vital component of Wagner and NYU. All students enrolled in this class are required to read and abide by Wagner’s Academic Code. All Wagner students have already read and signed the Wagner Academic Oath. Plagiarism of any form will not be tolerated and students in this class are expected to report violations to me. If any student in this class is unsure about what is expected of you and how to abide by the academic code, you should consult with me.

Henry and Lucy Moses Center for Students with Disabilities at NYU

Academic accommodations are available for students with disabilities. Please visit the Moses Center for Students with Disabilities (CSD) website and click on the Reasonable Accommodations and How to Register tab or call or email CSD at (212-998-4980 or mosescsd@nyu.edu) for information. Students who are requesting academic accommodations are strongly advised to reach out to the Moses Center as early as possible in the semester for assistance.
NYU’s Calendar Policy on Religious Holidays

NYU’s Calendar Policy on Religious Holidays states that members of any religious group may, without penalty, absent themselves from classes when required in compliance with their religious obligations. Please notify me in advance of religious holidays that might coincide with exams to schedule mutually acceptable alternatives.

NYU’s Wellness Exchange

NYU’s Wellness Exchange has extensive student health and mental health resources. A private hotline (212-443-9999) is available 24/7 that connects students with a professional who can help them address day-to-day challenges as well as other health-related concerns.
