

MHA

ONLINE MASTER OF HEALTH ADMINISTRATION

The Online Master of Health Administration program is designed to develop the blend of leadership and management skills needed for our complex US healthcare system. Woven into each course are themes of effective communication, ethics, equity, evidence-based management, leadership, and career development. This CAHME-accredited program leverages NYU Wagner's high-caliber faculty and resources and incorporates innovative tools and technologies, such as simulations, to provide interactive learning experiences.

NYU Wagner's Online MHA program is really interactive. You're taught by industry professionals who have years of experience. You're going to class with healthcare peers and they have unique perspectives on the industry that creates a great learning environment."

Dennis Liu
(MHA 2021)

PROGRAM HIGHLIGHTS

- **A part-time program** tailored for working healthcare professionals.
- **A practical curriculum** with immediate application to real-world challenges faced by U.S. healthcare managers and organizations.
- **Dedicated and respected faculty** who are leading researchers and experts in their fields.
- **Engaging and interactive online sessions** that serve as a virtual classroom.

ACADEMIC OVERVIEW

During this seven-semester program, you will have online coursework and one hour of live discussions per week per course. You will also attend a two-and-a-half-day immersion in New York City. The program concludes with an advanced virtual healthcare management simulation, where you work in a team online to manage a healthcare system. You will graduate with a deep understanding of the U.S. healthcare system, leadership and management skills, and the ability to think critically, preparing you to become a senior healthcare leader.
