# ONLINE MASTER OF HEALTH ADMINISTRATION

As the US healthcare system faces unprecedented challenges, the need for leaders to implement a vision for a better future has never been more urgent. The Online Master of Health Administration program provides the leadership and management skills you need to transform today's healthcare systems successfully. The program combines the best of NYU Wagner—including distinguished faculty and personalized attention—with the convenience of a part-time, online learning format. Bringing NYC and its diverse populations to your doorstep, you'll apply your skills while learning, so that upon graduation, you'll be well-prepared to tackle the most pressing issues in any health setting.

**NYU Wagner's Online MHA program is really interactive. The classes are virtual classrooms. You're taught by industry professionals who have years of experience. You're going to class with healthcare peers and they have unique perspectives on the industry. Altogether, that creates a great learning environment."**

(MHA 2021)

## PROGRAM HIGHLIGHTS

- **A part-time program** built for working healthcare professionals.
- **Curriculum with immediate application** to real-world challenges faced by US healthcare managers and organizations.
- **Dedicated and respected faculty** who are leading researchers and experts in their fields.
- **Engaging and interactive online sessions** serve as a virtual classroom.

## ACADEMIC OVERVIEW

During this seven-semester program, you will have online coursework and one hour of live discussions per week/per course. You will also attend one, two-and-a-half-day immersion in New York City. The program concludes with a highly advanced virtual healthcare management simulation, where you work in a team online to manage a healthcare system. You will graduate with a deep context of the US healthcare system, leadership and management skills, and the ability to think critically to help you become a senior healthcare leader.
