Master of Science in Health Law and Strategy

for Professionals

This unique master's degree program offered jointly by NYU School of Law and NYU's Robert F. Wagner Graduate School of Public Service will prepare healthcare leaders to shape the future of their organizations, and manage strategically within the complex legal context of today's healthcare system.

With an interdisciplinary approach, students will learn from expert faculty, and gain the critical skills to identify new strategic initiatives and drive innovation in the highly regulated health sector.
