

MHA

ONLINE MASTER OF HEALTH ADMINISTRATION

The US healthcare system is the most expensive on the planet, but its quality and equitable distribution of healthcare services do not measure up. This program will provide the leadership and management skills you need to successfully run today's healthcare systems. The Online MHA combines the very best of NYU Wagner—including renowned faculty and personalized attention—with the convenience and cutting-edge technology of online learning.

Our online approach meets the needs of working professionals. It will enable them to gain essential knowledge and skills required for senior managerial work and leadership roles.

Thomas D'Aunno
Director, Master of Health Administration Program;
Professor of Management

PROGRAM HIGHLIGHTS

- **A part-time program** built with working professionals in mind.
- **Curriculum with immediate application** to real-world challenges faced by US healthcare managers and organizations.
- **Dedicated and respected faculty** who are leading researchers and experts in their fields.
- **Live discussion and online lectures** serve as a virtual classroom.

ACADEMIC OVERVIEW

During this seven semester program, you will have online coursework and one hour of live discussions and lectures per week/per course. Additionally, you will attend one on-site, two-and-a-half-day immersion experience in New York City. The program concludes with a highly advanced healthcare management simulation, where you will grapple with complex challenges faced by leaders in today's healthcare systems.
