# PHD IN PUBLIC ADMINISTRATION

Pressing public service challenges demand thoughtful, interdisciplinary, and well-researched solutions. Our doctoral program will prepare you to conduct rigorous, cutting-edge, original research that has an effective impact on today's most critical public policy and administration challenges. Through theoretical and methodological training, you'll learn to ask comprehensive questions and produce insights that affect public and nonprofit policies and programs around the world.

**At NYU Wagner, I received fantastic mentorship from my advisors, gained invaluable research experience, and worked with other doctoral students on a daily basis. I had the opportunity to work as a research assistant at a research center, which provided me with a great support system and a network of future colleagues.**
