## EXPERIENCE

---

### IFMR LEAD

Senior Research Associate – Financial Inclusion vertical

July 2017 – May 2021

Research Associate – Financial Inclusion vertical

December 2019 – May 2021

July 2017 – November 2019

- Managed a Randomized Control Trial (RCT) measuring the impact of innovative microcredit products with repayment flexibility and parallel savings capabilities offered to SHG-affiliated women entrepreneurs with professors from Georgetown University and Trinity College, Dublin.
- Designed and leading a project studying household financial decision-making from a migration lens funded by Dvara Research (\$20,000 grant under the Dvara Household Finance Research Initiative).
- Co-lead on an RCT studying the effects of an information intervention about performance incentives on future performance of microfinance loan officers with professors from University of Groningen, University of Munich, and University of Essex.
- Managed a measurement experiment to test for gender bias in self-reported income measures with investigators from Stanford University.
- Worked on a variety of studies, including a dual field experiment studying the causes of gender gaps in microenterprise profitability with researchers from Stanford University (now at UC Berkeley and the World Bank).
- Proficient with quantitative research and analysis, including the use of econometric analysis and other statistical methods on experimental and quasi-experimental data, as well as with qualitative research methods.
- Wrote several successful research and grant proposals for a variety of donors, ranging from institutional, government, and development finance institutions.
- Co-authored several research reports, concept notes, articles and dissemination pieces, and presented our findings and recommendations to stakeholders and at conferences.
- Oversaw field work on end-to-end projects and smaller pilots, including delivery of training to field staff, designing of field and survey instruments, monitoring data quality, and supervising the implementation of interventions.

**UNITED NATIONS OFFICE OF COORDINATION OF HUMANITARIAN AFFAIRS**

January 2017 – April 2017

Consultancy – Partnerships & Resource Mobilization Branch, UN Geneva

- Undertook a study exploring the scope and implication of multi-year financing (MYF) in the context of multi-year planning (MYP), including on work across the humanitarian-development nexus under the mandate of the Humanitarian

Financing Task Team (HFTT). The study was commissioned by (former) Secretary-General Ban Ki-moon at the World Humanitarian Summit 2016.

- Delivered the UN's first ever baseline on MYF on protracted crises. Designed a data collection template and ran a pilot with UN agencies and donors.
- Provided a critical analysis of the effects of MYF on humanitarian organizations and actors, budgeting, resource mobilization, relationships with donors, agreements between first-level funding recipients and implementing organizations, and field operations.
- Developed actionable policy recommendations on the implementation of MYF in the context of MYF, measuring efficiency gains and building capacity.
- Completed a UN certificate course under the 'Managing in the Humanitarian Sector' program.

## **CONFERENCES AND PUBLICATIONS**

---

**PREFERENCES AND USAGE PATTERNS OF GOLD LINKED FINANCIAL PRODUCTS (GLFPs) ACROSS MIGRANT AND NON-MIGRANT HOUSEHOLDS (WITH JITHIN JOSE)** SUBMITTED FOR PEER REVIEW
