NEW YORK CITY TAXI AND LIMOUSINE COMMISSION, New York, NY

2011 – Present

Agency's Chief Executive Officer and Commission Chair (2014 – Present)

- Appointed by NYC Mayor to lead 600-person agency and nine-member Commission. Set regulatory framework that governs daily transportation of over one million people, performed in over 130,000 vehicles, ranging from taxis to Uber and Lyft, local car services and luxury limousines, driven by over 180,000 drivers -- the largest for-hire market in the nation.

Regulatory & Policy Work

- Developed novel policy to increase and protect driver income after establishing that most of NYC's 80,000 app drivers make less than a livable wage.
- Ensure that core consumer protections are in place for almost one million daily rides such as adequate insurance, price transparency, access for the disabled, and fingerprint background checks for all drivers. Annually prosecute over 22,000 consumer complaints.
- Establish the highest levels of accountability among app based car services, including Uber and Lyft, through daily submission of detailed trip records providing the City, policy makers and the public visibility into trip density and scarcity, vehicle utilization and overall use of shared City streets.
- Passed the nation's first and most comprehensive accessibility mandate for popular app based car services so they too can provide equal service to all. Transform nation's largest taxi fleet into nation's largest accessible taxi fleet, imposing an accessible mandate and follow through on every aspect of implementation.
- Passed dozens of groundbreaking regulations to address novel issues arising out of industry's meteoric growth.

Safety & Efficiency Initiatives

- Address street safety goals of Vision Zero by changing for-hire driving culture through specialized speeding enforcement, vehicle safety technology solutions, producing safety video from the victim's perspective "Drive Like Your Family Lives Here" for TLC driver training, now used in safety training nationwide, and enacting enforceable limits on driving hours to combat fatigued driving.
- Spearhead strategic deployment of over 200 enforcement officers citywide to enforce against illegal and unsafe activity.
- Improve vehicle inspection efficiency to maintain wait times and standards in the face of a 75% increase in vehicle inspections volume.

Operations & Technology

- Modernize agency from paper to online licensing while simultaneously creating savings and keeping abreast of a 70% increase in demand for licenses.
- Institute continuous technology and analytics improvements to ensure ability to host, keep secure and analyze one of the City's largest data sets -- billions of daily trip records.
