Wagner Resources Exercise

Using the resources in the Wagner Research Guide, find an article or paper that would contribute to an understanding of a potential policy response to the negative impact of gentrification upon long-term residents.

Cite it in APA in this padlet: <https://padlet.com/kam245/epmay2nccqg7x8xm>

Exercise

Directions: Since most Wagner disciplines use the APA style manual, we will practice with this form in the workshop. We will imagine that we are doing a research project that synthesizes ideas on the benefits and problems of bringing corporate or entrepreneurial modes of governance into the nonprofit sector.

Choose one of these to answer in the padlet linked below:

1. Write a sentence in which you paraphrase an idea from at least one of the articles linked above and then cite the author(s) by in-text citation.
2. Write a sentence (or two) in which you cite two or all three of the articles by paraphrasing main ideas from the articles and putting the authors in conversation with each other. You should cite the authors' names within the flow of your own sentence.
3. Write one (or more) sentences in which you cite either article by directly quoting that author's text.

Put a response to one of the above and an article citation here:
