- CORE-GP 1021: Financial Management for Public, Nonprofit, and Health Organizations

Course Description

An understanding of government budgeting is critical to understanding the policy process and the workings of government. This course covers the theory and practice of government budgeting at both the national and subnational levels. It reviews how governments raise revenue, the process and procedures by which they allocate funds, and the various budgetary institutions that shape fiscal outcomes. The course builds on the concepts and techniques that students learned in their core courses in financial management and microeconomics and introduces new tools that can be applied to the analysis of budgetary information. Along the
way, the course draws on insights from political science, economics, accounting, and public administration.

**Course and Learning Objectives**
By the conclusion of the semester, students will learn:
1. The functions, processes, and institutions of government budgeting
2. The interconnectedness of fund accounting, operating budgets, and capital budgets.
3. A set of new analytical tools, including: revenue forecasting, fund accounting, budget modeling, performance budgeting, and fiscal condition analysis.
4. How to prepare and critically assess key budget documents.

**Course Materials**
We will be relying on readings from a variety of sources rather than using a textbook. In some cases these readings will presuppose a certain level of knowledge about the topic. To ensure that everyone in the class is on the same footing, I will be assigning optional chapters from a textbook, which I will label as supplemental. The textbook is: Mikesell, *Fiscal Administration*, Tenth Edition (2018), Wadsworth. You are welcome to rent or purchase an earlier edition.

**Course Requirements**
There will be four components used in determining your final grade for the course:

**Short-Assignments, 20%**
- There will be two short assignments, each worth 10% of your grade: a program budget, and a summary of a budget hearing.
  - Program Budget: You will be required to prepare a budget for a new government program. The assignment should be submitted via Brightspace as a single Excel document.
  - Budget Hearing: At some point during this semester, you must attend a NYC City Council budget hearing (any hearing related to budget matters) and write up a short description (1 page single-spaced) of what occurred as well as where the
budget process currently stands. The schedule of committee meetings can be found here: http://legistar.council.nyc.gov/Calendar.aspx. (Search under “Committee on Finance.”) You may attend any hearing/meeting of your choice, so long as you turn in your summary before the end of the semester. The last day I will accept your summary is May 5th. Additional information is provided in a hand-out posted to Brightspace.

Memos, 50%
- You will be required to write two memos, each of which will require accompanying spreadsheets. Specific instructions for the written assignments will be passed out at a later time. All assignments should be submitted via Brightspace.
  - Memo: Revenue Forecast, 25%
  - Memo: Capital Budget and Debt Management Analysis, 25%

Take-Home Quizzes, 30%
- There will be two take-home quizzes, each worth 15% of your grade. The quizzes will be open book and open note.

Class Participation
- While class participation will not be a formal part of your grade, all students are expected to come to class having read the assigned material and prepared to engage in class discussion. Participation will be a factor in determining course grades in cases where a student is on the margin between two grades.

Academic Integrity
Academic integrity is a vital component of Wagner and NYU. All students enrolled in this class are required to read and abide by Wagner’s Academic Code. All Wagner students have already read and signed the Wagner Academic Oath. Plagiarism of any form will not be tolerated and students in this class are expected to report violations to me. If any student in this class is unsure about what is expected of you and how to abide by the academic code, you should consult with me.

Henry and Lucy Moses Center for Students with Disabilities at NYU
Academic accommodations are available for students with disabilities. Please visit the Moses Center for Students with Disabilities (CSD) website and click on the Reasonable Accommodations and How to Register tab or call or email CSD at (212-998-4980 or mosescsd@nyu.edu) for information. Students who are requesting academic accommodations are strongly advised to reach out to the Moses Center as early as possible in the semester for assistance.
NYU’s Calendar Policy on Religious Holidays

NYU’s Calendar Policy on Religious Holidays states that members of any religious group may, without penalty, absent themselves from classes when required in compliance with their religious obligations. Please notify me in advance of religious holidays that might coincide with exams to schedule mutually acceptable alternatives.
