Course Description

Management and Leadership is designed to empower you with the skills you will need to make meaningful change in the world—whether you care about bike lanes, criminal justice, prenatal care, community development, urban planning, social investment, or something else. Whatever your passion, you can have an impact by leading and managing. In this course, you will enhance the technical, interpersonal, conceptual, and political skills needed to run effective and efficient organizations embedded in diverse communities, policy arenas, sectors, and industries. In class, we will engage in a collective analysis of specific problems that leaders and managers face— first, diagnosing them and then, identifying solutions—to explore how organizations can meet and exceed their performance objectives. As part of that process, you will encounter a variety of practical and essential topics and tools, including mission, strategy, goals, structure, teams, diversity and inclusion, motivation, and negotiation.

Learning Objectives and Skill Development

The course combines conceptual and experiential approaches and is divided into five modules: 1) Leadership, 2) Teams and teamwork, 3) Interpersonal dynamics, 4) Designing and aligning organizations, and 5) Leading change.

Readings will introduce key concepts and useful ways of thinking about common situations in complex organizations. Case studies, exercises, and class discussions provide opportunities to apply theories, concepts, and research findings to particular situations to hone your managerial and leadership skills. The written assignments require you to consolidate your insight and practice your analytical and communication skills.

There are three learning objectives that cut across each Lesson:

1. Analytical Thinking and its supporting skillset is as follows:
 - a. Identify, analyze, and address underlying problems and opportunities
 - b. Recognize, analyze, and manage complex relationships
 - c. Reframe the way you approach people and situations
2. Leveraging diversity and its supporting skillset is as follows:
 - a. Identify, understand, and use different types of diversity
 - b. Explore how to create, participate in, and coach diverse teams
 - c. Develop skills to address the challenges and opportunities of diversity
3. Communication and its supporting skillset is as follows:
 - a. Recognize the importance of clear communication with stakeholders
 - b. Prepare effective, clear, organized written reports and presentations
 - c. Conduct effective meetings and facilitate group/team discussions

Course Material

1. Brightspace: You will find the course syllabus, assignments, exercises, links to readings through the NYU library, surveys, and slides here.
2. Material that needs to be purchased. **Note:** You must purchase the Harvard simulation course pack by the first day of class:
 - a. [Harvard reading course pack](#) with six required readings (\$37.30)
3. [Harvard simulation course pack](#) (\$16.25)
4. To keep costs down, I am providing you with all the articles and exercises that copyright allows me to post in NYU Brightspace. Most Harvard Business Review articles are in the [NYU library](#). If this link does not work, you can:
 - a. Go to [NYU library](#), search for: Harvard Business Review.
 - b. Click the first result in BobCat, then on the next page select the second option with articles after 1922.
 - c. Select "EBSCOhost Business Source Complete: Available from 1922."
 - d. Click "Search within this publication," then enter the article title and change the search box to search the "Title" of documents.
 - e. The first result should have the full text and PDF of the desired article.
5. Some class announcements will be distributed via e-mail. Thus, it is important that you actively use your NYU e-mail account, or have appropriate forwarding set up on [NYU Home](#).
6. **Note:** If we must go virtual for unforeseen reasons, there are a couple virtual simulations that you will need to purchase, but I will negotiate to keep this price low.

*If cost of materials is a concern, please let me know, and I will work to get you the material.

Participation

Each of us brings different and relevant experiences to the classroom, so we will be learning from each other, challenging our assumptions, and trying to understand the reasoning that underlies our colleagues' behavior. You do not have to contribute in every class, but you need to contribute sometimes or else everyone's learning suffers. We calculate your participation grade by 1) tracking comments throughout the semester and tracking your contribution to the class Discussion section on Brightspace (at minimum, we expect you to participate six times throughout the course), and 2) calculating attendance and survey / exercise submissions. If you will be absent or delayed, please email the teaching colleague.

Extra credit: You will get participation credit if you meet up (in-person, online, or over the phone) with a classmate and talk about careers and post something you learned in "Career Chats" in the Discussion section.

Individual assignment 1: Network due Wednesday February 14th, 9:00pm

This writing exercise is meant to allow you to consider the network information and network analysis you just engaged in. Please consult slides for assignment description. (One-page, single spaced, 1-inch margins, and 12-point font. Please submit your write-up on NYU Brightspace under Assignments.)

Individual assignment 2: Job crafting due Saturday February 24th, before class

This writing exercise is meant to allow you to consider the network information and network analysis you just engaged in. Please consult slides for assignment description. (One-page, single spaced, 1-inch margins, and 12-point font. Please submit your write-up on NYU Brightspace under Assignments.)

Individual assignment 3: Reflected best self due Saturday, March 9th, before class

This writing exercise is meant to allow you to consider your story alongside the stories you collected and analyzed and make concrete plans for how you will use this knowledge. Please see in-depth assignment description. (One-page, single spaced, 1-inch margins, and 12-point font.)

Please submit your write-up on NYU Brightspace under Assignments.)

Class Reflection assignment due Friday, Marth 15th, 9:00pm

(1) Briefly summarizes your key learning from our course; (2) identify specific behaviors you will use to improve yourself, your team, your organization, or your community based on this learning; and (3) describes how you will overcome barriers to engaging in these behaviors.

To be considered complete, your reflection must reference at least three resources we used in class. You may submit your answers in written form or you may record your answers (i.e., voice memos, videos, PowerPoints, etc.). You will be judged on completeness of your answers, not content – as long as you answer all parts of each question and reference the course materials, your reflection will be considered complete. (One-page, single spaced, 1-inch margins, and 12- point font. Please submit your write-up on NYU Brightspace under Assignments.)

Class Teams

You will be assigned a team to work together on two assignments. This is a learning opportunity as you engage in problem solving and provide information and recommendations to people who must make decisions about key strategic issues. Pedagogically, this assignment provides you with the opportunity to develop your writing, analysis, and communication skills. It also gives you the ability to apply course principles and practices.

- **Team memo:** Please include a cover page with the names of everyone who contributed to the memo and the role they played in the memo. If a group member did not contribute, do not include that person's name and s/he will not receive credit for this assignment.
- **Format:** Please see the “M&L instructions for memo” slides for more information
- **Grading:**

While there is no single right answer, there are stronger and weaker memos. The group memo marks will be calculated using the following weightings:

- 30 pts are allocated for the analysis of the problems/opportunities and root causes.
- 30 points are allocated for your recommendations.
- 16 points are allocated for demonstrating strong critical thinking skills.
- 12 points are allocated for the quality of your writing.
- 12 points are allocated for the organization of ideas and format.

We will give your memos an overall score based on the rubric above; however, the **individual score** you receive is determined by 90-10 grading where 10% of your score is determined by how your team grades your contribution. We provide examples below.

Overall Score (Memo)	Average team rating (Individual)	Individual Score
92%	100%	92%
92%	80%	90%
92%	60%	88%

Note: You must have your memo reviewed by either Professor Satterstrom, Will Harris, or the Writing Centre before submission

Land Acknowledgement

In the spirit of truth and equity, it is with gratitude and humility that we acknowledge that we are gathered on the sacred homelands of the Lenape people, who are the original stewards of this land. We honor and pay respect to their ancestor's past and present, as well as to future generations and we recognize their continuing presence in their homelands. We understand that our acknowledgment requires those of us who are settlers to recognize our own place in and responsibilities towards addressing inequity and that this ongoing and challenging work requires that we commit to real engagement with the Lenape people to build an inclusive and equitable space for all.
